

# IRATA ROPE ACCESS TRAINING (LEVEL 1)

## IRATA

IRATA training is the internationally approved qualification for rope access work in the offshore and onshore industries. Our approved courses combine the most engaging theory sessions with practical activities taking place in our world class rope access facility. Our course instructor, Michael Brushneen, is a highly respected and hugely experienced rope access professional with a passion for sharing his knowledge and skills with others.

Personnel attending this course are assured of the highest quality through our IRATA approval. Our Minteg courses have the added benefit that we are rope access specialists ourselves and our training delegates benefit from our real life rope access background.

---

## Duration

Five days in total (Mon-Fri)

Four days training plus one-day assessment by an independent, IRATA qualified Assessor.

---

## Purpose

The aim of this entry level rope access course is to provide candidates with the ability to perform a specified range of rope access tasks under the supervision of an IRATA level three safety supervisor

---

## Who

The course is aimed at those seeking a career in rope access or individuals looking to increase their employability by adding rope access to their existing skill set. No prior experience is required, however, prospective candidates must be a minimum of 18 years of age, should have a good level of fitness and aptitude for work at height.

---

## Assessment

Candidates are required to undergo a practical and theoretical assessment by an IRATA qualified independent assessor.

---

## Certification

Upon successful completion of the assessment, the candidate will receive a temporary certificate of competence which is valid for sixty days and will allow the candidate to work within the rope access industry immediately. Before the expiry of the temporary certificate (within sixty days) the candidate will receive an internationally recognised certificate of competence in rope access, an IRATA log book and IRATA identification card.

All IRATA qualifications should be renewed within three years of the date of the assessment. Revalidation consists of a four days training plus assessment at the required level.
