

# IRATA ROPE ACCESS TRAINING (LEVEL 2)

## IRATA

IRATA training is the internationally approved qualification for rope access work in the offshore and onshore industries. Our approved courses combine the most engaging theory sessions with practical activities taking place in our world class rope access facility. Our course instructor, Michael Brushneen, is a highly respected and hugely experienced rope access professional with a passion for sharing his knowledge and skills with others.

Personnel attending this course are assured of the highest quality through our IRATA approval. Our Minteg courses have the added benefit that we are rope access specialists ourselves and our training delegates benefit from our real life rope access background.

---

## Duration

Five days in total (Mon-Fri)

Four days training plus one-day assessment by an independent, IRATA qualified Assessor.

---

## Purpose

The aim of this course is to provide existing level one candidates with the skills and knowledge required to rig working ropes, undertake rescues from a variety of situations and assemble and implement hauling systems under the supervision of an IRATA level three rope access safety supervisor

---

## Who

Level one candidates whose current certification is in date, have held their level one qualification for a minimum of twelve months and have 1000 logged hours covering a variety of work situations and experience. Candidates must be competent at their existing level and physically fit and healthy. It may be necessary to complete refresher training to ensure level one competence prior to attempting an upgrade.

---

## Assessment

Candidates are required to undergo a practical and theoretical assessment by an independent IRATA qualified assessor.

---

## Certification

Upon successful completion of the assessment, the candidate will receive a temporary certificate of competence at level two which is valid for sixty days. Within sixty days the candidate will receive their level two certificate and identification card which are valid for three years from the date of assessment.
